SQUIRES LANE
LEARNING FEDERATION

14th March 2025

Dear Parents/Carers,

Next week (17th - 23rd March 2025) we will be celebrating Neurodiversity Week in school and talking about neurodivergent differences and strengths with the children. Neurodiversity is the natural differences that in human brains which include Autism, ADHD, Dyslexia, Dyspraxia and Tourette's Syndrome. The aim of the week is to help children understand, accept and celebrate differences in how we think, feel and learn and to promote inclusive attitudes and actions. We will be having an assembly in school, talking about neurodiversity and completing activities in class.

We hope this will provide an opportunity for the children to learn about and reflect on who we are and how we can support each other better. If you would like to learn more, do look at the Neurodiversity Celebration Week website at https://www.neurodiversityweek.com/.

Should you wish to ask any questions, do contact me via the school office.

Yours sincerely,

Fran Conley

Assistant Head/SENDCO
