SQUIRES LANE
LEARNING FEDERATION

25th February 2025

Dear Parents/Carers,

This is a reminder of the Smart Phone Free Childhood Campaign that we are supporting along with all other schools in Barnet Borough. Please see the attached letter sent out before the half term break.

We have noticed a huge difference already in the number of smart phones being brought to school, but would like this to be none at all, in line with the campaign. Please contact the school office or make an appointment to meet with one of the Heads of School if you require any further information on this.

Kind regards,
The SLLF Leadership Team

Iain Dalziel
Head of School - Squires Lane Learning Federation

Smartphone Free Childhood-Barnet

February 14th, 2025

Dear Parents/Guardians,

We are increasingly concerned about the impact of smartphones on our children.

Smartphones are a big part of life today. Most adults have one. They are great for finding information and staying connected with family and friends.

However, there is now an **alarming amount of evidence and research of the negative effects of smartphones and social media on children and teenagers**. These include:

- Poor mental health, such as depression, anxiety and low self-esteem.
- Issues with cyberbullying, attention, focus and sleep.
- Exposure to dangerous and harmful content, and inappropriate material; and
- Smartphones can be highly addictive, so time spent on a device reduces time spent playing, interacting and developing vital social skills.

Children often get their first phone in primary school and over 90% of 12-year-olds now have a smartphone. This period is crucial for brain development, and the younger a child gets a smartphone, the more harm it can cause.

Schools are in a powerful position to change the norm and therefore a large group of Barnet schools have come together as we are committed to making our Barnet schools smartphone-free. Children cannot use smartphones during the school day, and **we do not want primary school children to bring a smartphone to school. Additionally, from September 2025, new cohorts of children moving to one of the secondary schools in the below list will no longer be permitted to bring smartphones or smart watches into their school for the duration of their time in Years 7-11.**

Research now indicates that age 11-15 is the age group when children are at their most vulnerable to potential negative influences from access to social media. Accessing the internet through a smartphone can pose additional risks than doing so from a more secure network in the home environment. As such, we are also encouraging all parents to delay giving a smartphone to your child until they are at least **14 years old** and to delay allowing your children access to social media **until age 16**.

A growing number of parents and schools across the country are choosing to do this and there is **widespread support from Barnet Education and Learning Service (BELS), Barnet Public Health, Barnet Headteachers/Principals**

and Chipping Barnet MP Dan Tomlinson. We include a list of local schools that are working together on this campaign.

If you need to contact your child while they travel to and from school, a simple 'brick' phone is enough. "Brick" phones do not have internet connectivity, and they are inexpensive.

We would like to work together with parents to safeguard children and preserve childhood. By doing so, we can not only protect our children's mental health and wellbeing, but we can also set a standard for how communities can come together to challenge the norms that no longer serve our children.

We are encouraging other boroughs and regions to consider similar actions because together, we can make a big difference in our children's lives.

If you would like to find out more about support for parents who want their children to be smartphone free, do please visit Smartphone Free Childhood and One Collective Power.

Yours sincerely,

Jenny Mitchell ,Iain Dalziel , Emma Taylor
