Friday 12th September 2025

Year 3/4 Times Tables - Parent Workshops

Dear Parents/Carers,

Next week, there will be workshops for parents in Year 3 and Year 4 to support their children with their times tables knowledge. In this session, we will look at some of the ways the children can practice these key skills at home along with sharing some of the strategies used in school.

National Curriculum expectations are that by the end of Year 4, children know their times tables up to 12x12 fluently and can answer any times table question with automaticity and fast recall. This enables the children to then confidently access the Year 5 and 6 curriculum, where these skills enable them to access topics such as fractions, decimals and percentages.

I will be hosting meetings at Manorside and Tudor. The meetings will take place as follows:

Wednesday 17th September at 9am at Manorside
Thursday 18th September at 9am at Tudor

Both meetings will be the same, please only attend one based on whichever time suits you best. I look forward to seeing as many of you there as possible.

Kind regards,

Mrs Hubball-Barnard
Assistant Head
